Please see attached documents.

I am the plaintiff in the allege complaint stating that a malicious crime has been committed against me as a result of working at a company by the name of La-Z-Boy Furniture Galleries Incorporated. While employed I was racially profiled, and consumed food in the workplace which later led me to become ill. When I was offered medical benefits through the company I used the medical benefits (Blue Shield/Blue Cross) to seek medical attention. On the day, February 28th, 2019 I had a procedure performed called an "Endoscopy", "an Endoscopy is the insertion of a long thin tube into the body to observe internal organ or tissue in detail, it can also be used to carry out other tasks including imaging and minor surgery; Endoscopes are minimally invasive and can be inserted into the openings of the body such as mouth or anus." (Medical News Today, 2004-2021). I felt that I needed to have this procedure done to check for any abnormalities in my intestine that caused me to feel ill and stool to have an odor that smelled like ammonia. In addition the behavior of my coworkers in the workplace was very strange, I was taunted with whispers, smirking, giggling and things mumbled under their breath as I walked about the store to perform my daily tasks. Unfortunately, no matter how much I tried to be the bigger woman and simply ignore it, the behavior continued to the point I had no choice but to accept the fact that it was directed toward me. The environment at the company was toxic and hostile on a daily basis. This resulted after I spoke up about an incident that occurred on April 28th 2018, regarding a Sales Manager Frances McClure who referred to me as a "colored girl", **please see attached document 'CHARGE OF DISCRIMINATION'** issued by the EEOC. I reported the incident to Greg Osborne who did not address the issue. I then reported the incident to Greg Osborne's District Manager Aaron Swartout who thought that it was inappropriate. I presume he addressed the situation however, I am not positive because there was not a mediation or sit down with all parties involved to address the matter as a group, which would have been I myself, Frances the Sales Manager as well as her boss Store Manager Greg Osborne and the District Manager Aaron Swartout. When I was referred to as a "colored girl" I admit that I should have quit. The reason that I did not quit when I was racially profiled as well as the realization setting in that I indeed happened to be the only minority in the workplace, is because I was working toward building a career while pursuing my AABF as an online student at the University of Phoenix to improve my life as a whole. I started pursuing my degrees late in life and I was in my late 30's getting no younger I needed to get my life in order. I was initially excited about landing a job at the company, where I knew that I could make good money based off my customer service skills and previous experience in commission, not to mention my passion for helping others and working as a team toward a common goal. I left two PT jobs as a manager (key holder) to work FT at La-Z-Boy as a Sales Associate. However, I applied for a Lead Sales Rep position on Indeed that was eliminated upon hire. I was disappointed when I was told that the Lead position was no longer available because I became accustomed to being an opener/closer of a store that entailed the responsibilities of possessing a key and alarm code as well as other managerial duties. I downgraded from a position where I was being mentored to becoming an Assistant Manager. I am mentioning key points in this claim to be thorough in my explanation about how a malpractice suit stems from a racial discrimination suit against a company that racially profiled me and how I can prove beyond a reasonable doubt with the evidence and documentation that I have accumulated over time that an inhumane act was committed against me that was premeditated. I am claiming Andrew Tinsley MD, a Gastroenterologist was negligent and conspired with La-Z-Boy when he performed an illegal procedure on my body that I did not consent to when I had the Endoscopy performed under the company's medical benefits.

I came to realize that something was seriously wrong with my body as of August 2020, although there were telltale signs that led up to my final conclusion. I am currently still experiencing symptoms even as I pursue my litigation against all parties involved in this inhumane act that has been committed against me to mentally, physically and emotionally destroy me! My life has been turned upside down to be a form of entertainment for others...at my expense! I have documented a lot while employed at La-Z-Boy, I also document as much as I can while I am still experiencing a form of stalking through technology! Before I continue to state key points on how I can prove that a conspiracy has been committed against me that involve all defendants in my claim. I will like to elaborate on this technology that even the most intelligent people will not be able to understand IF they never been exposed to it. It definitely is not "unforeseen" or an unknown phenomenon! One will also think, why will someone risk their livelihood and life successes to risk losing it all just to try to enjoy a form of entertainment that is beyond sick. The answer is some people simply have access to the necessary resources and are more privileged than others. Professionals from every arena have used these two things "resources and privileges" to get away with manipulating the legal system and getting away with the most serious crimes.

In this world that we live in technology has become so advanced. Advanced in a way where people have been opting in to be microchipped and are becoming walking cyborgs or intentionally altering their bodies indulging in a body-hacking experience to change their bodies INTENTIONALLY to embark on their own personal fetishes that involve transhumanism, techno-progressivism introducing Bio chemicals into the body to change its normal functionality. On a broader scale of technology in the medical field there is another level to *chipification*, "the embedding of a 'technique' inside the human body, is best illustrated by the ever-increasing, and in this instance positive uses of implant devices, for medical prosthesis and for diagnostics; Human centric implants are giving rise to the *Electrophorus*, the bearer of electric technology." (Uberveillance: Microchipping People and the Assault on Privacy, 2009). I have searched high and low to try to understand how the people that I use to work with became able to communicate with me when they are no were near me. They have been conducting a 24/7 remote neural monitoring on my person that I have been trying to escape since I came to fruition of what was happening to me. This is a serious crime against me that is referred to as "heavy sin" by Aaron Swartout District Manager of La-Z-Boy! I know that this sounds insane, which is a reason that I felt that I had no one to talk to about this situation! I have been tormented with electronic harassment on different areas of my body, that I often feel like a walking human voodoo doll! While I search for answers from medical advisors there is no denying that there are red flags, however a solution has not yet been found. I have not had all the necessary testing on my body to prove what is happening but I can still prove beyond a reasonable doubt that it is! The pandemic has caused barriers in getting immediate help, because I cannot arrive at a specialist office and demand that I have been illegally microchipped and speak about everything that I am experiencing I will be looked at like I am crazy... I have been looked at as if I am crazy. It takes a medical professional that is advanced in Medical Technology to understand how this happened to me, begin to perform the correct analysis on my body to conclude that indeed what I am describing is or has happened to me. I have an Idea of what I am experiencing revolves around what is called a, "Wireless Body Area Network (WBAN) which is a new trend in technology that provides remote mechanism to monitor and collect patient's health record data using wearable sensors." (Survey of Main challenges (security and privacy) in wireless body area networks for healthcare applications, 2016). This technology enables a Human computer interaction that is field based in design and the use of computer technology, which focuses on the interfaces between people and computers. Smartphones can remotely access the information sensed by the sensor or a Personal Digital Assistant (PDA) between the patient and qualified medical officials. This is a healthcare application that brings benefits and challenges to the healthcare sector. It is critical that this data does not fall into the wrong hands or someone with access allows a data breach to take place. If this medical equipment falls into the wrong hands it can be

harmful even deadly to the patient. Unfortunately, I have fallen victim to becoming a kind of target, I have been implanted with something to allow my body to feel hot/cold sensations, genital harassment, and my nerves are manipulated to cause high levels of pain. I've noticed strange lesions, experience tingling sensations, and sharp stabs that I often feel like a pin cushion. In addition, I have noticed my body do things that I normally wouldn't do when intimate. I realized January 2021 that I was not the only person engaging when I would have intercourse. It sounds very sci-fi but the technology exists whereas people can be connected through technology to experience a surreal experience as if they are actually present with the person they are connected to and sync with another's senses. This is possible by having sensor nodes implanted or worn on the body surface. For example, there is different systems of networking that allow individuals to interact in an augmented virtual reality that allows brains to connect with one another through a super computer. For example, I have something implanted in my body, but those who are monitoring me may be wearing sensor pads in order to manipulate my body so that our senses are connected something that I did not consent to. I am claiming that Andrew Tinsley manipulated my body and rigged my nerves to enable others to interact with my body to enjoy causing me pain or pleasure. This is a crime that was premeditated and as I stated in the Charge of Discrimination issued by the EEOC management and medical professional conspired to cause me ill will!

As, I proceed in proving my case I am aware that "The presumptions of innocence is a legal principle that every person accused of any crime is considered innocent until proven guilty; Under the presumption of innocence, the legal burden of proof is thus on the prosecution, which must present compelling evidence to the trier of fact!" (Presumption of Innocence, 2021). I am asking the Honorable Judge appointed to my case to initiate an investigation based off of the Federal Questions that I am raising in this claim.

Eric S. Chandler

- Does anyone know why a complaint was sent certified mail to Capri Holdings Corporate Office and return receipt was requested, however the receipt came back with no signature. Yet there still is no response or acknowledgment of receipt for plaintiffs' claims of what she is experiencing? The tracking states that the letter was received. Does anyone want to explain why something seems to be covered up and why?

- Was Black mailing Andrew Tinsley M.D. something anyone amongst the defendants discussed?
- Does anyone in the Executive Corporate office of La-Z-Boy above Defendant Aaron Swartout know of any of plaintiff's complaints? If so, was there an investigation prior to plaintiff contacting EEOC? If they are not aware why are they not when plaintiff sent complaints not once but twice to corporate office which she can validate with her tracking receipts. The complaints were received at corporate address in April 2021. Again, why does it seem someone is trying to keep something or "someone" hidden?
- Is anyone aware at La-Z-Boy corporate office above Defendant Aaron Swartout know of what the plaintiff experienced in the workplace when she was racially profiled?

To Whom It May Concern I had an endoscopy procedure done at the Hershey Medical Center on February 28, 2019. Andrew Tinsley was the attending physician. I am aware of what took place on Feb 28, 2019. I did not only have an "Endoscopy", but I believe and know for a fact that my body has been tampered with beyond disbelief! It is unbelievable that I am still alive and breathing. I am indeed alive but I am very sick. I am currently in the process of gathering all the evidence that I need to pursue a lawsuit against ALL parties involved to destroy me mentally, physically and financially. I am filing this complaint to state my claim that I will do everything in my power to prove that foreign objects have been placed in areas of my body and it is obvious. I have fallen victim to becoming what is called a "Targeted Individual". I am being attacked because of the foreign, microscopic artifacts that is inside of me and somehow allowing "Electronic Harassment" and a "Microwave Auditory Effect" take place. My life has been a living nightmare since I came to fruition of what was actually happening, as of July 27, 2020. However, I knew something was odd when I woke from the Endoscopy, I noticed something very strange, it felt as if I could pop bubbles of blood in my fingers and toes; each finger press, each toe step felt like miniature burst of say caviar type bubbles! I felt awfully strange but I pressed on! Due to a form of Voice to Skull (V2K) I have basically lost everything, but I refuse to lose my sanity!! I am being stalked and electronically harassed by individuals that I worked with at Lazy Boy Furniture Galleries due to some kind of microchip that has been placed inside of my body. This is a form of retaliation from me making an issue about being called a colored girl! A manager at Lazy Boy named Mary Holzer basically begged me to get medical benefits through the company during a toxic hostile environment that ensued after the write up of Sales manager Frances LNU. I am receiving or so it seems 24/7 remote neural monitoring. This is not an unforeseen phenomenon that has never taken place in the world, and I am not the only person who has fallen victim. However, I know exactly who my perpetrators are that have been present since the Endoscopy via espionage, and were also harassing me since the date of being called "colored". A conspiracy that I can and will prove to be factual of how this disturbing nightmare has become my reality. It was all premeditated.

I had the Endoscopy procedure done due to being taunted by coworkers that I was "sick". I already suffered from allergies and was seeking medical help through ear, nose, and throat physicians. Behind my condition worsening after consuming food in the workplace, 'that I have no proof of proving that I was poison in the workplace,' but the "behavior" of my ex-coworkers and how they behaved "suspicious" as if they were aware of something that I was oblivious to, (which was not the case) I was very aware of their actions. They made it obvious which I can show later through audio, documentation from 2018-present, as well as photos. I was discriminated upon and singled out! Moving on...so the environment became so unhealthy and stressful that I was forced to quit. I threatened to sue prior to quitting, and warned after no solution took place after continuous sit downs with higher management

that I was documenting EVERYTHING! As time pursues I try to move on with my life with ills here and there, changes occurred in my health. I started working out to feel better. I meant a professional athlete trainer Curtis Smith in June 2020. He started to help me pursue a healthy diet, workout regimen, and lifestyle offering his expertise as well as massage and chiropractic services. I decided to get a clean bill of health so I **scheduled** an appointment at the York Clinic to get bloodwork for STD's to prove to my trainer that I was in good health to possibly go further with a career in becoming his partner in a ZOOM program healthy fitness lifestyle. Arriving at the York Clinic day of appointment **PRESCCHEDULED** week of July 5, 2020, approximately July 6th or 7th this is an approximate day; I had blood withdrawn from a woman by the name of Kim Hall. Before entering the room to give blood, I was told to wait in the corridor, a man in a white shirt with a bald head came out of the office down the hall further looked at me nodded as if acknowledging something then I was asked by Kim to enter room. The man was Andrew Tinsley! He was at the York STD Clinic same day of my blood withdrawal. I knew something horrible happened with the intravenous needle stick. It was a set up that I have yet to prove but my body is evidence! I all of a sudden experienced muscle aches, involuntary limb movement, nerve issues as well as swollen legs more so around the ankles and a rash. I had to decline from my workout regimen and my diet was off. I became weak and lost weight. I am down 18-20 pounds since July 2020. I googled Andrew Tinsley his photo came up because I was curious what he looked like because of my health failing and the suspicious behavior at the York Clinic. I was not surprised at what I saw it was Andrew Tinsley I never seen Andrew Tinsley's face at the Endoscopy procedure.

I feel that I have been poisoned at the York Clinic as an effort to silence me. I feel like I am dying of what I don't know. It is not a known blood borne pathogen, but it is a toxin that acts as a disease that effects anyone I am intimate with. I have been told through a "Microwave Auditory Effect" that I am a "free porn show", that I appear as a "white girl hologram", "who knew", "it's all propaganda", and that I will do what I am told or else. My life has been threatened daily and the individuals want me to leave town, that I am just a target. 'They also remind me that I am "small" under "their umbrella" and that I will never win against a millionaire mogul. As I waste away I am being attacked through some kind of energy beams (MHz) as a result of some kind of transmitter placed in me to receive the energy. 'I will not give up, I will fight this to my last breath.' The only way this could've happen to me is through a medical procedure by someone with the expertise in the Gastroenterology field of medicine. I have been trying to cope until I can have the necessary doctors in place that are experienced enough and practice with honor and integrity to help heal me and not secretly destroy me or condone this kind of sick act against humanity! I know it is designed to make me look insane. I am very focused and determined even with my health failing and odds against me. I have numerous appointments in place to get this in the spotlight psychiatrist, neurologist, my family physician, and physical therapy. The pandemic causes a delay in getting the help that I need, but I am on a mission to succeed or die trying. I've felt strange sensations in my vagina, haven't been able to use the bathroom or move bowels on my own, brain fog, memory loss, burning hot heat feeling, or ice feeling, gagging, popping of ears, sneezing uncontrollably, dizzy spells, strange dreams, forced wake, forced sleep, tightness in chest as if I have a pump in my heart, vibrating by vagina, itching at anus then unable to release bowels as if shut, stomach feels as if it could burst at times, and shortness of breath. My eyes do the strangest things like as if they are lenses and often feels like I have sand or dust in my eyes. I felt tingling in my eyelids as well as lesions

appearing on skin, nerves in teeth cause sensitivity. I visited a dentist and they told me any work needed can be put off, then soon as I leave out the dentist office I feel pain in my mouth.

Through this Microwave Auditory Effect I am asked "why I came to the company? That I am a felon that should have never been hired. That they cannot keep keeping me and I am being accused of illegal activity. I beg the people to leave me alone, if I've done anything wrong please report it to the authorities to stop causing me pain. I made the company over half a million dollars. They say that they will continue to do what they want and it seems that I can feel their emotions, tears, laughing, and excitement very strange. I went to the police (local) and to the FBI. I spoke to an agent in Harrisburg Daniel Wright who promised me if something is happening any abnormality in a MRI which he like me to get he will pursue! The NAACP is also doing what they can to locate me an attorney. I Erica Sheri Chandler of sound mind with the exception of V2K Voice to Skull vow that everything that I spoke of is honest and true. I am fully capable to attest in the court of law left hand on the bible, and right hand raised!

How would you like this complaint to be resolved?

I will like the medical board to make Andrew Tinsley MD aware of my complaint. I will like the matter to be investigated. I will like the doors to be open for me to get a full body MRI. I need thorough scanning and bloodwork. I should be tested for toxins that are deadly. I will like tracking performed of the electromagnetic waves that are targeting me that are able to cause me pain. I ultimately will like to be compensated for my pain and suffering once all is revealed. In the court of law a person is innocent until proven guilty. I know what was and is continuing to happen to me is uncivilized and inhumane. I ask for justice to be served!

Mr. Kurt Sir,

March 29, 2021

This note is in addition to the documents that are enclosed that I sent out to Secret Service, FBI, EEOC, Board of Health, and Judiciary Board and lastly I will be filing in the Clerk of Courts. I am addressing this matter legally. I have been signaled out and discriminated at your Lazy Boy Company located at 1484 Harrisburg Pike Lancaster, Pa. 17601.

Firstly, I like to inform you that initially I was under the impression that the Lazy Boy Corporation as a whole is involved with the mental & physical torment that I am experiencing. However, through a voice to skull microwave auditory effect which this technology that I had to research in full depth is unbelievable (**See attached documents to see explanation in detail**). I will try to keep this letter directly to you brief. I am told by Aaron Swartout through this technology and other co-workers namely Mary Holzer, Debra Ristanbatt, and Erica Roberts (no longer employed), which I am only aware that Erica Roberts former store designer and Frances M. former sales manager who referred to me as a "colored girl" are no longer employed is because of the technology called V2K voice to skull. I never wanted to see or hear from any employee at your company since the day I left May 15, 2019! However, ironically Erica Roberts appeared on 283 on July 13th 2020 after I left a PT job I was working at Michael Kors outlet Hershey Pa. She pulled up beside me in a Gray KIA, the same vehicle she drove when I worked with her at Lazy Boy. I truly believe it was a set up. She "Erica" seem to be pointing something at me on that highway. You're welcome to do your own research on this technology and how it is operated to stalk and torment people.

Mr. Darrow Sir, I am dealing with something unfathomable. Your employee's Marketing Manager Aaron Swartout, Store Manager Mary Holzer, former designer Erica Roberts, Lead Associate Debra Ristanbatt, Associate Amber Parrott, as well as two conspirers from the Michael Kors store where I used to work Manager Jennifer Wintergrass and her Assistant Manager John LNU and a women by the name of Sharonda Green- Carter a women that actually moved into my community at Cool Creek Manor in Wrightsville are in possession of some kind of gadget that somehow is linked to me and this is made possible through an endoscopy I had done Feb 28, 2019 under Blue Shield medical benefits through your company sir! They say it was all for a sex tape "virtual" that I am a sex slave, that it is all unforeseen, and that I am rigged and I can never get out. They also tell me that I am a criminal that I never belonged at the company, I should have never came, who knew? They also say that I did something at the company to reference to "foreign policy". Sir I never did anything dishonest in your work place. I unkempt my professionalism, and integrity I practiced my workplace etiquette beyond exceptional. I made your company almost \$600,000 in my first fiscal year because of my immaculate record of service and great interpersonal social skills and love for customer service. The women that I mention in this note are jealous, envious women that worked together with other people to conspire against me. Linda Downham Lead sales witnessed the environment but she did not partake.

Furthermore, I am told corporate Lazy Boy is not aware, but Aaron Swartout portrayed to be chuck Hauser. They act like he is present in this Microwave Auditory effect then they say he is not. Sir, I am being tormented but I am holding up. I plan to sue your company and all parties involved. I will not give up in proving this sick act that has been committed against me. A FBI agent told me that if a MRI shows **ANY** abnormality he will pursue. I am in the process of doing what's necessary, as your District Manager says, "you have a lot to prove" this is something he keeps saying to me. They say and do a lot of things to scare and intimidate me, telling me to RUN! Or to leave Lancaster all together that they will make me move, that I will BOLT! Sir, I have felt things beyond belief. I am opening your eyes here and now to something whether you're aware or not. I am now making you aware. I have audio that I recorded, I have documentation as well from 2018-2019. Mr. Darrow I planned on suing for discrimination and harassment in 2018 but I decided to try to make the best of the situation, but the environment became worse once Mary Holzer came from the York store once Greg Osborne retired, mind you they also say Greg was aware and told them not to do this to me. I became fully aware what was happening as of July 2020 but I knew something was amiss when the quarantine occurred from the pandemic. In August 2020 Debra Ristanbatt spoke to me through a Microwave Auditory Effect, she said "Your rigged you better walk and you know why"! I am going to take this all the way Sir. And I apologize if you are not aware and all the same I apologize if you are. I been wronged!

NOTE: Mary Holzer, Debra Ristanbatt

Sincerely, Former Employee

And Amber Parrott are in your store on

Ms. Erica Chandler

Former Employee

Capri Holdings Corporation

New York, NY. 10036

Subject: Request reason for termination/OFFICIAL date of termination

To whom it may concern,

Greetings I am a former employee of the Michael Kors outlet store located at 72 Outlet square in Hershey Pennsylvania. My last day of employment was July 13th, 2020. I never returned to work when hours was offered for me to work August 1st, 2020. The reason that I did not return was due to an uncomfortable work environment which I believe was created for me prior to me arriving day of July 13th, 2020. I believe and know for a fact that the Manager Jennifer Wintergrass, and Assistant Manager John LNU is conspiring with former employer I use to work for Lazy Boy Furniture Galleries namely District Manager Aaron Swartout, Store Manager Mary Holzer, Store designer Erica Roberts, Debra Ristanbatt, Amber Parrot and a neighbor who is a CCRN Sharonda Green- Carter who are committing a crime using technology in the form of **neuralink a brain-computer interface** that I did not consent to. I have yet to prove this is happening because it is indeed far fetch and leaves one to wonder why someone would take such a risk to commit an act like this. The reason is because it is an accusation that is hard to believe but the technology does exist and when in the hands of the wrong people it can be life threatening and imposes danger to society as a whole. As I move forward with doctor visits and a lawsuit against Lazy Boy for a Sales manager referring to me as a **"colored girl"** that will hopefully soon go into a Malpractice suit against Hershey Medical Hospital, because of the toxic environment that was created that led me to have an endoscopy under Lazy Boy medical benefits, which led me to this reality of some kind of microchip that has been placed in my body that has made my life a living nightmare! I am accusing the Manager of Michael Kors Jennifer Wintergrass and her Assistant Manager John LNU of stalking me with this technology as well. I contacted Jennifer once I became aware she was involved via text to her current cellular that is the same personal contact she has had since the day I was hired. I have text messages logged of Jennifer and I communication. I accused Jennifer in the text dated February 17, 2021 6:22am which I said to her **"I quit yet you are still involved with stalking"**. She then responded, **"I have no idea what you are referring to in any above text; you said you were moving that is why you left, I have NO CONTACT INFO ON YOU AND NOT CONNECTED TO YOU IN ANY WAY, I AM FORWARDING THIS COMMUNICATION TO MY COMPANY.** I have yet to hear from corporate in regards of accusing one of their employers of stalking me. So I believe Jennifer never communicated to anyone in corporate of the accusation simply because she is indeed guilty of what I am accusing her of. She

claimed she has no contact info to reach me in a text. That is a false statement because I have communicated to her during onboarding my email address E.S.WILSON2014@GMAIL.COM and again during quarantine via text my email which should still be in former employee's file. Also, when I was terminated and/or removed from payroll as a result of no longer being employed with the company should also be in the database. I called Jennifer at the store and she was very unprofessional and hung up on me. I then called back and I did record the conversation I asked her why the line disconnected she said that it was because of a bad connection. I asked her to provide me proof that I was no longer employed with Michael Kors which I need for my own personal business which I am entitled to. Jennifer said that she was not privy to that information and referred me to a Jacklyn Mihal whom I left numerous messages and have yet to receive a call back. I contacted Jennifer again and she then gave me a number to someone named Juan who is affiliated with Michael Kors. I left numerous messages as well for Juan to contact me regarding this matter. I then attempted to call other stores because of getting what I believe is a "run around." I spoke to an Aisha at the Lancaster Michael Kors outlet. I explained to her the situation she told me to google Capri Holdings because she needs to protect her store, she also told me that I should be able to access workday even as a former employee. I then contacted Jennifer at the store again and she was rude spoke briefly and hung up she did not allow me to finish my sentence. I called the store back and I believe I spoke to a Justin whom again sat the phone down and would not speak to me I also have this recorded. I then called the boutique located in the Park City mall. I spoke to an Angela and Jennifer they gave me Jacklyn Mihal number and was not understanding why I was not getting thru or receiving a response. I was then given a Jonathan Stern, whom I was unable to reach as well, but I left numerous messages that have not been answered as of yet. I finally received a call from a man name Juan who stated he was with Loss Prevention with Michael Kors from a different number then what was given to me from Jennifer Wintergrass. Juan told me that he will look into getting the information that I needed. After communicating with Juan 3x he finally told me I was terminated from Michael Kors as of August 25, 2020, that he can forward the info to my email and/or my home address which I provided to him. It has been two weeks since I spoke to Juan and over a month since I been trying to communicate with HR. In addition Juan is no longer answering his phone I believe it was not an official call in the first place. Thus, I have not received anything tangible to prove I am no longer employed with Michael Kors, when I became officially terminated and the reason. Due to lack of proper business practice, lack of professionalism & integrity I am considering moving forward in a lawsuit against your company. I ask you to please further investigate my contact info is 717 980-4949.

Figure 1. The four-layer typical architecture of an eHealthcare system.

Such sensors continuously capture and relay vital parameters. However, depending on the functionalities and computation capabilities of nodes, data may require low-level on-tag processing prior to transmission. The collected data then may either initially be relayed to a central coordinator on the body or may be transmitted directly to the upper layers for further processing. The required transmission power by a sensor node in an off-body communication is mainly dependent on a number of factors such as Body Path Loss (BPL), Receive Noise Figure (RNF) and Signal to Noise Ratio (SNR) [26]. BPL greatly depends on the radiation patterns of the antennas used [27,28]. RNF is also a device-dependent factor. Each device has its own RNF and is indicated in its datasheet. SNR however is influenced by the quality of the overall communication link. The performance of SNR can be improved by a number of techniques such as Error Control Coding (ECC) techniques and Single-Input and Multiple-Output (SIMO) methods [29,30].

Layer 2 contains user interaction devices. Depending on the selected wireless communication protocol, different devices may be required to be used. For instance, Bluetooth-based sensor nodes require Bluetooth-based monitoring devices such as smartphones or PDAs. Layer 2 acts as an Access Point (AP). APs for residential monitoring are usually located within a room environment. Each room is equipped with an AP, where wireless devices are connected to a wired network, Wi-Fi or other relevant standards [31]. Collected data from this layer is required to be transferred to an upper layer (layer 3) in order to be prepared for the final destination. From room (layer 2) to black box (layer 3), there are a number of home networking possibilities that need to be considered [32].

There are three “room-to-box” scenarios which are explained in more detail as follows. First scenario provides an approach based on dedicated cabling. In this scenario, either both data and power are transferred over a cable (e.g., Power over Ethernet (POE)) [33] or data and power are transferred over separate cables (e.g., power over mains and data over

EXAM:

MRI BRAIN WITHOUT AND WITH CONTRAST

HISTORY:

Dizziness. Chronic non intractable headache. Bilateral tinnitus, right greater than left. Migraines. Balance issues.

COMPARISON:

CT brain exam dated 09/07/2020.

TECHNIQUE:

Multiplanar multisequence MRI of the brain without and with intravenous contrast was performed and reviewed.

CONTRAST: 7.1 mL of Gadavist intravenously.

FINDINGS:

PARENCHYMA: No hemorrhage, edema, midline shift or mass-effect.

Very subtle focal white matter signal alterations in the pericallosal white matter along the posterior body of the corpus callosum. Series 12, image 9 on the left and series 12 image 14 on the right. These correspond to series 6, image 9. No enhancement in this area.

No evidence of acute ischemia. No other region of abnormal enhancement after intravenous gadolinium.

VENTRICLES/EXTRA-AXIAL SPACES: Normal size and configuration for age. No extra-axial collection.

High-resolution imaging through the cerebellopontine angle cistern do not show any suspicious findings. Structures of the IAC are within normal

limits bilaterally. No suspicious enhancement.

FLOW VOIDS: Unremarkable.

MIDLINE STRUCTURES: Unremarkable.

CALVARIUM/SOFT TISSUES: Unremarkable.

PARANASAL SINUSES/MASTOID AIR CELLS: Visualized portions are clear.

MISCELLANEOUS: There is no significant abnormality noted otherwise.

IMPRESSION:

Minimal focal FLAIR signal alteration identified in the pericallosal white matter corresponding to the region of the cortical spinal tracts.

Symmetry favors that this may be a normal variation. As appropriate clinically consider interval follow-up re-evaluation.

No suspicious lesion along the IAC or cerebellopontine angle cistern.

No acute infarct or hemorrhage or suspicious mass.

Contrast Protocol: In cases when use of the Medical Staff approved contrast protocol was deemed necessary and appropriate, physician electronic signature indicates review and approval.
